EDUCATION

Indiana University Indianapolis, Luddy School of Informatics, Computing, and Engineering — Indianapolis, IN
Master of Science in Human-Computer Interaction, GPA: 3.9/4.0 — Expected May 2027

Indiana University, Luddy School of Informatics, Computing, and Engineering — Bloomington, IN
Bachelor of Science in Informatics, Minors in Web Design and Human-Centered Computing — August 2021 – May 2025

SKILLS

Design & Research: Ideation, Wireframing, High-Fidelity Prototyping, User Research, Usability Testing, Heuristic Evaluations
Design Tools: AdobeXD, Figma
Frontend: HTML/CSS, SQL, Bootstrap 5.3, Jinja, Python
Backend: Flask, Python, PHP
Databases: MariaDB, SQL, PyMySQL
Version Control: GitHub, VS Code

EXPERIENCE

AI and Automation Student Worker — August 2026 – Present
IU Indianapolis, Office of the VP for Student Success — Indianapolis, IN
- Supporting university strategic initiatives by developing and prototyping AI, automation, and data tools in Python, SQL, and Excel to improve operations, reporting, and decision-making.
- Collaborating with supervisors and departmental partners to translate business requirements into documented project plans, prototype solutions, and actionable recommendations.
- Documenting project progress, decisions, and outcomes, and preparing a formal end-of-term presentation summarizing findings and recommended next steps for university stakeholders.

Operations Efficiency & Workflow Integrity Intern — June 2026 – August 2026
Zotec Partners — Carmel, IN
- Developed and maintained a multi-database SQL pipeline aggregating operational workflow data across enterprise production servers to support an internal efficiency tracking initiative.
- Designed and queried relational data models to calculate and validate projected cost savings from automated processes, applying statistical averaging methods to normalize weekly volume data for reporting.
- Coordinated cross-functional stakeholder outreach and translated operational time-savings estimates into structured financial metrics, producing executive-ready deliverables for a formal end-of-internship presentation.

IT Consultant — March 2026 – May 2026
IU University Information Technology Services — Indianapolis, IN
- Provided in-person technical support for Windows, macOS, iOS, and Android devices, resolving hardware, software, account, and connectivity issues for students, faculty, and staff.
- Supported central university systems, including email, learning management systems, storage platforms, and CrimsonCard services, ensuring secure identity verification and policy compliance.
- Assisted Student Technology Centers with lab troubleshooting, printer support, and operational maintenance while delivering professional, customer-centered service in high-volume environments.

Mobile UX Design Intern — January 2026 – May 2026
Vaccine Genie — Remote
- Designed wireframes, user flows, and interactive prototypes in Figma for a digital health platform across iOS and Android.
- Planned and facilitated usability testing sessions, synthesizing feedback into design iterations that improved accessibility, navigation clarity, and task completion efficiency.
- Developed and documented a scalable mobile design system aligned with Apple HIG and Material Design standards, creating reusable component libraries for the platform.

UX/UI Design Intern — September 2025 – December 2025
Altheros Capital — Remote
- Designed intuitive, visually compelling digital experiences for a modern EHR application, conducting user research to surface key usability requirements and inform design decisions.
- Created comprehensive user flows, wireframes, and interactive prototypes using Figma to communicate design intent across the product lifecycle.
- Collaborated closely with cross-functional design and development team members via Slack to deliver cohesive, implementation-ready designs.

Server — May 2023 – May 2025
Chuy's Tex-Mex — Bloomington, IN
- Delivered consistent, high-quality service across high-volume shifts, managing multiple tables simultaneously while maintaining guest satisfaction in a fast-paced environment.
- Collaborated with kitchen staff and management to coordinate service flow, resolve guest concerns, and uphold team standards during peak hours.
- Developed interpersonal and communication skills through daily engagement with a diverse customer base, adapting service style to meet varied needs and build lasting rapport.
